## The Raymon Grace Newsletter

**Howdy Folks,**

**From time to time, we like do a favor for all you folks out there who are trying to make the world a better place.**

**We like to keep the information simple, blunt and to the point, so you can use it.**

**There are a lot of conditions that affect people and many people have the same conditions affecting them. Each person seems to think that they have something 'special' and need special attention. This may be true for some but not as much as they think.**

**About a year ago I worked on a 70 year old man who had been a nightmare to live with. Not a bad fellow at all but just did things that made his wife's life miserable, and never knew he did it. His intentions were good but his judgment was bad. The problem affecting him is called ADD.**

**I did an intensive clearing on him and taught his wife how to help him, she then taught him how to help himself. She saw a significant improvement in a few days and two weeks later he wrote a nice note thanking me for helping him.**

**Since then, their lives have been very different than all the other years they lived together.**

**Here is an email received recently by a grandmother, concerning her son and grandson.**

"Raymon Grace has been working with my family for quite a while and it has made a huge difference in every case.

My adult son has been diagnosed with Bipolar Disorder and was contemplating suicide when his business went bankrupt and he felt he couldn't get a job. Raymon worked on him and shortly after he called me and said he was no longer suicidal. He had not mentioned to me that he was suicidal, but Raymon saw it in his brain. He also got a exactly the job he wanted. He is as happy and light as I have ever seen him in his life.

My six year old grandson was having OCD symptoms. He was asking if he could touch the couch over and over and washing his hands many times a day in connection with the question "Can I touch the couch?" He also wouldn't say "yes" or "no" but answered every question with "maybe.". Then he started repeating a sound and my son was concerned about Tourette's syndrome. My son made an appt with the Dr. After Raymon worked on him, his symptoms started to disappear. By the time he got to the doctor he was fine. He's doing great still.

Every person Raymon has worked on in my family has shown improvement to a marked degree."

**In an effort to help as many people in the least amount of time, we have made a short video and are offering it for free. In this short video, I address three of the things I did to help these people, and I do it for you as you watch this video.**
