Howdy Folks!

Seems like it is time to talk about water again. Over 30 years ago, I set a goal to clean up the water on earth, because it is one of the most important things we have and it was getting polluted. Every day there was less good drinking water and more people using it. Didn't know how to do this but figured I could learn.

Have written about this and make talks in every class, showing people how to do it. Problem is, most people don't use the information to do it for themselves.

Considering the success we have had, there is reason to believe that all you people can have good drinking water running out of your kitchen faucet.

As part of the weekly energy clearing I do for some of you, I work on cleaning up your drinking water and some of you have told me you can taste the improvement.

One lady, whose water came from the public water supply, placed a bottle of water from her faucet beside a bottle of pure spring water. Then when her husband came home, she asked him to taste water from both bottles. He could not tell any difference.

If you want to learn how to do this and are not able to attend a class with me, just get the 'Energize Water' DVD from www.raymongrace.us Some folks have made this as simple as playing the DVD and with 'intent' directing the energy of the DVD to their water supply. Follow along with the DVD and it teaches you how to do this yourself.

On another subject, people are concerned about the shootings and violence in schools. Well, we have something that might help. The DVD 'Change Energy ~~Change Your Life' was made for cleaning up people and places. If you have kids or grandkids in school, you might want to play the DVD and direct it at the school, at least once a week and watch it and work along with it and learn to do this yourself.

You can also dowse to check the level of danger of the kids for the day. Just ask, 'What is the probability of danger for any kids in the school today?'

On my chart, the idea reading would be a MINUS 100%. On your scale it might be zero, depending on how you read the chart.

If you get a high reading, ask these questions.

What is the probability someone is planning violence at the school today? In the future?

How many people? Students or someone else?

Next - Remove negative entities and demons if any. Take away their 'killer archetypes' and any abusive archetypes by any name.

Mentally put a red light on their head to make them visible to the police before any violence occurs.

The same thing can be done for human traffickers that might be watching the school.

The world is not the same as it was 20 years ago. If you want to protect your kids, learn how to do something - and then do it. This is why I offer classes, webinars, DVDs and books.

If you want to discuss dowsing and energy work with someone unfamiliar with it, send them to www.raymongraceprojects.us and tell them to click on "what is dowsing" on the left. This opens a page to explain just what dowsing is and what you can do with it. You can also visit www.raymongrace.us , click on dowsing and you will find other videos and audios.

Faye will be attending the West Coast Dowsing Conference the end of June and will take my DVDs with her if you want to save on postage and will be attending. I think you can still register at www.dowerswestcoast.org until the 13th. IF you miss that deadline and want to watch the best speakers.....they will be available in your living room via a live stream. Yes, you can watch it as it happens, and review for the next 30 days. Faye will put the information below. Call or email THEM about them...all I can tell you is it is available. If something does not work I cannot help you. Do not contact me about the livestream!

A few years ago I was invited to be filmed for a video with various healers, scientists and those working with energy. If you are interested, here is the link to get information about it. [E-motion with Raymon.](#)

Enjoy Summer!
